agarwalkunal196@gmail.com

India

TECHNICAL SKILLS

Frontend

React.js Next.js React Native Flutter Redux

HTML5 CSS3 JavaScript TypeScript

Backend

Node.js Express.js NextJS Python Flask

Django FastAPI REST APIs GraphQL

Database & Tools

MongoDB MySQL PostgreSQL Redis Firebase

Git Docker AWS

AI / ML

OpenAI API LangChain TensorFlow Pandas

NumPy

EDUCATION

B.Tech - Computer Science

LIET (Laxmi Devi Institute of Engineering & Technology)

2021 - 2025

A ABOUT ME

I am a Full Stack MERN Developer with **2+ years** of hands-on experience building scalable web and mobile applications. I have worked on various production-grade projects including **SocialPulse AI**, **CrashGuard AI**, and **CodeVista AI**. I possess advanced understanding of **Node.js**, **React.js**, **Next.js**, **React Native**, and **MongoDB**, along with expertise in **NestJS**, **Express.js**, **Flutter**, and **Python** frameworks (Django, Flask, FastAPI). I have a strong command over RESTful API design, database architecture, cloud deployment, and modern AI integrations. Passionate about writing clean, maintainable code and delivering pixel-perfect, high-performance digital products.

W WORK EXPERIENCE

Full Stack MERN Developer

Jan 2024 - Present

EnvisionAITech LLP

- Developed and maintained full-stack web & mobile applications using React.js, Next.js, Node.js, NestJS, and React Native for production environments.
- Built SocialPulse AI - an AI social media analytics app and website that pulls data from Twitter/X, YouTube, and Instagram for engagement insights.
- Developed CrashGuard AI - an accident detection app and website that analyzes uploaded photos or videos to identify accident scenes and severity.
- Created CodeVista AI - an AI-powered code editor website with smart coding screens, project navigation, collaboration views, and Vercel deployment.
- Designed scalable RESTful APIs, integrated third-party services (Razorpay, Firebase, OpenAI), and implemented real-time features using WebSockets.
- Collaborated with cross-functional teams in an Agile environment with CI/CD pipelines and Git-based version control.

Software Development Intern

Jul 2023 - Dec 2023

IMG Global Infotech

- Contributed to front-end and back-end modules using React.js, Node.js, and MongoDB for client-facing web applications.
- Gained hands-on experience in API integration, database management, and responsive UI development.
- Participated in code reviews, sprint planning, and deployment workflows under senior developer mentorship.

R KEY PROJECTS

SocialPulse AI - Social Media Analytics

React Native • Next.js • Node.js

An AI-powered app and website that collects data from Twitter/X, YouTube, and Instagram to analyze growth, engagement, reach, sentiment, content trends, and campaign performance.

CrashGuard AI - Accident Detection App

React Native • Next.js • Python

A computer-vision app and website where users upload road photos or videos to detect accident scenes, severity, and visual evidence with AI-based media analysis and result previews.

CodeVista AI - AI Code Editor Platform

Next.js • AI Editor • Vercel

An AI-powered code editor website with smart project navigation, coding workspace screens, collaboration-focused UI, and a polished web experience for development teams.
